WHAT IS THE PURPOSE OF A SYLLABUS?

Is the Syllabus a Contract?

No, it is not....

Harrington & Thomas (2018)
Purpose of the Syllabus

Communication Tool
- Share overview of course
- Prevent potential misunderstandings

Planning Tool
- Course learning outcomes
- Strategies to accomplish goals

Motivational and Supportive Tool
- Encourage and Guide Students
- Provide information and resources for success

Harrington & Thomas (2018)

The Syllabus as Course Design Tool?

- Learning Outcomes
- Evidence
- Teaching Methods
  - Formal
  - Informal

An Example…

Introductory Psychology Syllabus

Learning Outcomes:
- Students will learn how to read and study psychology concepts effectively, maximizing learning efforts.
- Students will learn how to conduct effective literature searches.
- Students will effectively apply concepts learned to experiences or situations that are meaningful to him or her.
- Students will discover the relationships among psychology concepts.
- Students will be able to compare and contrast theories, research findings, and other psychological concepts.
- Students will be knowledgeable about cognitive processes such as critical thinking and decision making and will apply these concepts to himself or herself.
- Students will develop a passion for learning.
- Students will be enthusiastic about applying concepts learned to their own lives and the lives of others.
- Students will highly value the role of psychology in today’s world.
- Students will understand the important role of culture in learning.
- Students will be able to describe the different types of research methods used in the field of psychology.
- Students will be knowledgeable about the functions of the brain, the process of sensation

A Better Example…

Introductory Psychology Syllabus

Learning Outcomes: What You Will Know!

Upon successful completion of PSY 123, you will be able to:

1. Recognize psychological theories and concepts and will be able to summarize the contributions of psychologists.

2. Describe the various research methods and apply this knowledge to evaluate psychological research studies.

3. Articulate the importance and value of psychology in today’s world.

4. Deliver clear and organized presentations and documents using APA style.
Processing Time…

• How do you bring attention to the course learning outcomes?

• How might you bring even more attention to important parts of your syllabus?

Supportive Statements

Please come and visit me!
Welcome to the course! I am excited to be your instructor and can’t wait to get to know you. Throughout the semester, we will be talking about your goals and career plans and strategies that will help you be successful. I hope that you will be view me as part of your support team. In addition to teaching you research-based success strategies, I am here to help you plan for success, problem-solve as needed, and celebrate successful experiences. My official office hours are listed above, but I’m more than happy to find a different day and time to meet if these do not work well for your schedule. I believe that it’s really important for us to talk outside of class so please connect with me before or after class, stop by my office (or make an appointment), and e-mail me!
What Information can Motivate Students?

Campus Resources

Available Help and Support:
Successful people access support from others as needed. Middlesex County College has many supportive services that can help you as you strive to achieve your goals. I encourage you to reach out to me or other professionals on campus. Here’s some information about the resources available to you:

Rationale for Assignments

**Assignments:**

**Academic Integrity Assignments:**
To help you avoid unintentional dishonesty, all students are expected to view the [Academic Integrity Narrative PowerPoint presentation](link also in Campus Cruiser) and take a quiz on it in Campus Cruiser. You’ll take the quiz as many times as necessary but will need to achieve 100%.

**Reading Assignments:**
To accomplish all of your learning goals, you will need to be engaged in a lot of learning outside of the classroom. You will be expected to read the text and articles. To help you actively engage with the text, you will be completing reading assignments—typing answers to the questions posed at the end of each chapter. While you will be reviewing some of the concepts from the text in class, we will simply not have enough time to cover everything. As future educators, all of this information is important!

**Quizzes:**
Practicing retrieval is an effective learning strategy. To maximize your learning experience, you will be taking a quiz on every chapter. Quizzes are online (in Campus Cruiser, Login book, and are not timed. You can take each quiz up to three times, and the highest score will count. These are called formative assessments—they are designed to help you learn.

**Presentations/Teaching Opportunities:**
Since this is a course that is preparing you to become an educator, doing presentations is important! You will have the opportunity to do 3 presentations:

1. For one presentation, you and one other student will write a 2-3 page paper on one of the research articles from the packet.
2. For the other presentations (literature review), you will work in small groups of 3 students and will review a research on an educational topic that must be approved by your instructor. Your presentation will provide the class with an overview of the research along with the impact of these findings on the classroom. Note: this will be the basis for your capstone.

<tr>
<td>A</td>
<td>Visually effective slides. Images, charts, graphs, Smart Art were used to organize information. Grammatically correct, good organization, free of spelling errors, cited source appropriately. Completely described: ✓ Introduction-Clear explanation of purpose of study and what question researchers were seeking an answer to ✓ Method-Overview of how study was conducted, description of participants and what participants had to do ✓ Results-Answer to research question, clear explanation of the key findings ✓ Discussion-Description of value of study and how students can use this information to their advantage.</td>
</tr>
<tr>
<td>B</td>
<td>Well organized slides - grammatically correct, good organization, no more than a few spelling or grammar errors. Addressed all areas above with general responses; not a lot of details provided. Minimal use of visual tools such as Smart Art, graphs, images.</td>
</tr>
<tr>
<td>C</td>
<td>Generally well organized, some spelling and grammar errors. Answered most questions (but not all) with general responses; not a lot of details provided. Little or no use of visual tools.</td>

Application

- Syllabus is often first impression- especially if given out electronically before class
- Use Positive Language and Tone; Use “you” instead of “students”
- Use visual tools
- Provide helpful information and resources

Application

- Add specific information – especially about course schedule and assignments (i.e. rubrics)

- All essential information is in one place

- Sends positive message about instructor, setting a positive tone for course

- Visual images, charts or tools - longer syllabus but perhaps better!

How Should Faculty Address the Syllabus in Class?
Get Students Involved with Syllabus

- Syllabus Quiz
- Jigsaw Classroom Exercise
- Interact with syllabus every class- student or faculty reviews plan for the day
